

Theory of Change

WE...

Work from strong values based on respect, relationship and sharing

Monitor, document and reflect on our work

Keep up to date with current thinking in our field

ON THIS BASIS, WE...

Write accessible content about early language and literacy

Develop and produce high quality, multilingual resources and training materials

Develop and test M & E tools and approaches

USING THESE, WE ...

- Resource, train and mentor early literacy and language practitioners and trainers
- Facilitate a network of early literacy and language practitioners and trainers in schools, NGOs and government

- Research and evaluate the impact of our programmes
- Participate in academic and learning forums

- Communicate through the media about language, literacy and Wordworks' programmes
- Respond to policy and engage people of influence in their constituencies

- Ensure wider access to early language and literacy materials, tools and ideas

SO THAT ...

Wordworks' materials and programmes are used by a wide range of people

Individuals in the sector are trained and resourced to strengthen their work in language and literacy

A network of institutions and organisations collaborate and prioritise early language and literacy in their work

More research and evaluation is conducted in the sector and the evidence base in the field of early language and literacy is strengthened

Public and private resources are invested in early language and literacy

SO THAT ...

- Parents and practitioners working with young children
- recognise the importance of language and literacy
 - have the knowledge, skills and confidence to support early language and literacy learning
 - have a transformed attitude to their role and practice

Effective, high quality early language and literacy programmes are sustained by schools, NGOs and government

SO THAT ...

Young children have rich early language and literacy experiences

Young children at risk are supported through early interventions

SO THAT ...

Young children learn to read and write so that their lives are enriched and they grow to their full potential.
