

## Say-it-and-move-it : Blends

--	--	--	--	--	--

---

### You will need:

Say-it-and-move-it board (laminated or placed inside a plastic sleeve); counters (beans or buttons); picture cards; whiteboard marker

### How to play:

Place a picture card (eg hand) on the board in the large block.

Help the child to name the picture saying the word slowly so they can hear each sound.

Take 4 counters and show the child how to move a counter into a small block as they say each sound of the word (h-a-n-d). Work from left to right.

Remove the counters from the blocks and give the child a whiteboard marker so they can write each letter in a block to make up the word.
