

Shanaaz St Claire

I first got involved with HSPP because my daughter was struggling in Grade R. I wanted to be able to help her. I got the opportunity to co-ordinate the Ready Steady Programme when the previous co-ordinator left the country. I saw there was a need and I love to help children. Children are my inspiration!

I have learned patience because not every child learns at the same pace. The interactions I have with the children have also developed my listening skills. I have learnt how to draw! I am inspired by watching how the children grow, and how they remember what they have learnt!
